

Time Management

Overview

The Time Management workshop will cover strategies to help participants learn crucial strategies that include personal motivation, delegation skills, organization tools, and crisis management. This course may earn a Credly Badge.

Target Audience

Professionals in a variety of fields who are seeking improved time-management skills so that they can perform more effectively.

Course Objectives

Time management training most often begins with setting goals. These goals are recorded and may be broken down into a project, an action plan, or a simple task list. Activities are then rated based on urgency and importance, priorities assigned, and deadlines set. This process results in a plan with a task list or calendar of activities. Routine and recurring tasks are often given less focus to free time to work on tasks that contribute to important goals. This entire process is supported by a skill set that should include personal motivation, delegation skills, organization tools, and crisis management.

Course Outline

1 - Getting Started

Icebreaker
 Housekeeping Items
 The Parking Lot
 Workshop Objectives
